Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

For today's update, I want to follow up on last week and talk about how it is that God is restraining the evil and sustaining the righteous. And the reason is the common thread in all of the testimonies we received was basically about this: The increasing of evil, and evil is waxing worse and worse, seemingly with each passing day.

But God. That which was meant for evil, God means for good. And He's working it for good and for the salvation of many this day.

Now, before I share with you these testimonies, I'll begin with three passages of scripture. I'm going to start with a well-known one, a prophecy actually, in 2 Thessalonians Chapter 2. I'll begin reading in verse 5-8.

The Apostle Paul is writing to the church in Thessalonica. This is his second letter to them. And he says to them, "Do you not remember that when I was still with you I told you these things? And now you know what is restraining, that he may be revealed in his own time. For the mystery of lawlessness is already at work. Only He who now restrains will do so until He is taken out of the way. And then the lawless one will be revealed, whom the Lord will consume with the breath of His mouth and destroy with the brightness of His coming. Can't wait!

Psalms 55: 22, "Cast your burden on the Lord, and He will sustain you. He shall never permit the righteous to be moved" [shaken].

And Isaiah 46:4 - by the way, Lord willing, we're going to resume our study on Thursday nights. We're going through the Bible and we're currently in the book of Isaiah. But I want to draw your attention to verse 4 of Chapter 46.

Listen to this. "Even to your old age and gray hairs I am He. I am He who will sustain you. I have made you and I will carry you. I will sustain you. and I will rescue you."

Wow! That is a promise that every single one of us should hang on to, especially in this day in which we are living. Please know that these are just three of many passages of scripture that speak to God, restraining the evil and sustaining the righteous, more specifically that of what's happening in the world today and how it is meant for evil. But God means it for good.

Enter the "But God" stories that I want to share with you.

But before we do, we'll go ahead now at this time and end the live-stream and redirect you to JDFarag.org if you're not there already.

So last week I mentioned that we wanted to hear testimonies from you about what God is doing in the face of the evil in the world today. Well, we received over 2000 responses that are still coming in, spent the better part of last week going through them, actually started Sunday afternoon.

And I finished the first run-through Tuesday night, actually late Tuesday night, and then started compiling them, praying, and then asking the Lord which ones He would have me to start sharing today. Lord willing, we'll continue to share these because there is just so many of these. in the weeks ahead. So what follows are what we're affectionately referring to as "But God" stories, some of which are by faith, still trusting in the Lord.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

This first one is from Yvette. "What God is doing" Here in Australia, our public health organizations are mandating vaccines for health workers with no exemptions for faith reasons. I was told I will lose my job.

Currently I am studying Daniel and learned that God gave him favor when he refused to comply to the king's rules in Chapter 1.

I didn't argue with management but prayed that I would have favor if it was God's will for me to keep my job. Within two weeks Management met with me saying, "We don't want to lose you," and have reversed their decision in the public health administrative role I work in. Praise God! He is able to carry us." Praise the Lord!

[Applause]

This is from - please, if I butcher your names forgive me. You have to forgive me, actually. You have to forgive me.

[Laughter]

But this is from Chana and Eddie Sussman. "Very dear Pastor JD, we are messianic Jews living in Israel, in the small Jewish community, with a small percentage of believers of Ma'ale Adumim, a few kilometers from Jerusalem. We are firmly standing against the "vaccination".

We are retired, but the employment situation is unfortunately also depending often on vaccination certificates or weekly check-ups. We are deeply disappointed, to say the least, in our government, which sold us out as lab rats, and our Christian pastor who seems to be unaware of the demonic happenings over this country and the world.

The Book of Revelation does not appear to be a reality for him. He took the jabs [plural] as well as his family and most of the congregants. The pastor in particular was sick a whole week after the third shot."

By the way, I am going to limit my commentary, but just bear with me. I asked the Lord to really temper me on this. But as the Lord leads, I do need to insert a couple of comments. I don't know if you've noticed or not, but here in America, the CDC vaccination cards, there are four lines. Did you know that, for four shots? So in Israel, they're already on number three.

"So he was sick a whole week for the third shot. We have been tolerated so far. But as the mask must be worn now and because of the present circumstances, we are choosing to leave this congregation. To be noted there are so-called Christian assemblies who refuse entry to non-vaccinated believers [this is in Israel].

The hospitals also tried to refuse treatment to non-vaccinated sick people in need of Urgent Care. But the Supreme Court voted against it last week."

That's restraining the evil and sustaining the righteous, I might add.

Still quoting, "Unfortunately, many believers here have taken the jab. Without the green passport, entry to many facilities is denied, i.e. restaurants, hotels, theaters, museums, movie theaters, gyms, clubs, travel, even certain malls, et cetera.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

Since July 21st of this year there is now a "Happy Pass" or "Green Pass" or "Green Badge" which limit large gatherings over 100 people to only those who are vaccinated, recovered, or present negative Covid test. These gatherings, indoors or outdoors, include weddings, event venues, halls, churches, synagogues, et cetera.

The penalties for not abiding by these rules are quite severe. These regulations are a painful reminder of the Gestapo lifestyle during the Nazi period, a grim perspective of the "new way of life," of the "New World Order."

But God has kept us with great inner peace regardless of what still might happen. We know He is with us at all times. Maranatha, Lord! We have decided to make you our official pastor."

Oh, yeah.

[Applause]

I am so honored, by the way; you have no idea.

This is from Spiros Synakos. Again, I hope I'm pronouncing his name correctly.

"Hello, my dear brothers and sisters in Christ, from a little village [get this] outside Thessalonica, Greece."

This is the modern-day city of Thessalonica that I just read the letter from the Apostle Paul to the ancient cities, the same city. Thessaloniki, how cool is that? Okay, anyway, sorry.

"I am writing this letter, so you will get encouraged by my story. In these times of deception that we live in nearly two years now with the plandemic, God has shown me His amazing grace and support. January 2020 God made our wish come true after many, many years to move to a village outside the big city, buying our own house just in the nick of time before the first so-called cases of Covid.

Living in the village, thanks to our Father, we didn't feel any lock-down side effects.

At that time, I was unemployed, receiving my monthly benefit. I prayed to God to help me find a job. So He did. A year later, just when my benefit was going to expire, I started working in my current job six months ago on February of this year.

I stated to my employer from the day I took the job interview that this is a "planned-demic," not a pandemic. [that's pretty bold at a job interview]

As the newest guy on the job, I was oftentimes called a "denier." This is what they call people who don't want to get vaccinated here.

Until recently, I got a lot of heat and pressure to wear a mask in the presence of my employer and other coworkers, to get the mandatory tests for Covid, and get the jab.

But God was so loving towards me that He gave me a strong faith in Him. So in these perilous times, I raise my shield of faith and trusted in the Lord with all of my heart to help me. And He did not let me down.

Steady but surely God helped me to find favor in the eyes of my employer. Even though I am only six months in the job I became a key asset to the business. The times I had to actually wear a mask was

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

very limited. I don't even carry one on me when I'm at work. I have never done a single Covid test even though they are mandatory since August.

My employer said to me the other day that he understands my beliefs, so he doesn't ask of me to take the job. And as a cherry on the top, he will increase my wage this month. God is so good!

I hope this message encourages you all! Have faith in the Lord; He will not let you down. Remember what Shadrach, Meshach and Abednego replied to Nebuchadnezzar in Daniel 3. Stay firm and trust the Lord. I hope to see you all in the Rapture."

You will and we'll take you up on that.

[Applause]

This one is amazing!

It's from Avery Plattsmier.

"Hi JD! My name is Avery, and I'm 11 years old.

(Audience saying "Aww.")

[I know; that's what I said]

I live in northern Nevada, and me and my mom watch your Bible Prophecy Update and your Bible sermons. My mom's best friend told us about you, and ever since then we've fallen in love with your sermons and Prophecy Updates.

When I heard on your latest prophecy update video to reach out to let you know how God's moving in our lives, I asked my mom if I could fill out the form.

Not so long ago my mom sat down with me and wanted to prepare me for the possibility of me not continuing in public school if the job gets mandated. I love school and this upset me.

That night before I went to bed, I prayed to God and I asked Him if he could help me accept that fact."

[Eleven years old]

"The next morning when I woke up, I felt like something was different. I felt changed. I took my thoughts captive. Then I noticed that both of my best friends would be home-schooled. One of my best friends that lives in Idaho has been home-schooled since first grade, and my other best friend will be home-schooled as well if the job becomes mandated.

Satan had me questioning God. But then I remembered this is for my good and God's glory. Thank you for your time. Sincerely, Avery Plattsmier."

Wow!

[Applause]

This is from Gina Melton. "Few praises I would like to share.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

1) College student called urgently asking for religious exemption help. We were able to place a religious exemption letter together for her that she felt confident and comfortable with. They accepted it!

2) A nurse friend submitted her exemption letter, went in for religious exemption review last week. And we are waiting for the outcome this week. In these two incidences what was meant for evil BUT God... Instead of walking into the situations with fear, they chose to walk in with hope that those who had to read the religious exemptions hearts would be changed.

Regarding the nurse friend who met with the religious exemption committee, there were five people there for the interview. Five people heard a believer's humble, sincerely-held beliefs in God and their convictions. Again hope is that after a week of hearing various people's testimonies, they, the committee, will come to know the Lord.

3) A sheriff's friend had to go into an area that required the jab or proof of negative test, which neither did they have nor want to do. The time came that they had to go to work in this area, which meant that they would have to take a test on-site before entering. They struggled with this and played through many scenarios, BUT God... because when they got there, the area asked for nothing, which is very uncommon.

It was as if God opened all the doors for them to do their job and leave. Like you said, we do not always know the when or how, but do know that He is taking care of and watching over us."

Sounds like a Psalm 91 praise report, doesn't it?

This is from Roy Palmer.

"I am a bi-vocational pastor who works as a custodian in our local school district. So I have a first-hand view of what is coming down the pike as far as the dark agenda they are indoctrinating our children with. Our district just enacted a new transgender policy which greatly cripples anyone who may disagree with the policy.

Also as can be imagined, the increasingly godless ideology being taught to little preschoolers right through to graduation is evident in the behavior of those children. Couple this with the emphasis being placed more on feelings than thought or intellect with the social/emotional model being emphasized in our schools, and it seems there is little-to-no hope for those children.

But God has been gracious to me despite those prevailing conditions in allowing me wonderful ministry opportunities within that very context from being asked by the principal to pray for him, and the school, to being the keynote speaker at the Junior Honors Society banquet where those very children and their parents were able to hear the Gospel, and being interviewed by the principal before the seventh and eighth graders, and him asking me to speak about what I do on the outside as a pastor, which I was able again to give the Gospel. I say all this to say that yes, things are dark and it seems as though evil is prevailing.

But God has allowed me to pour into lives and speak on His behalf and minister to people who are very fearful and confused. If I were to try to encourage anyone today, it would be to say, focus on your mission one soul at a time, make a difference, and speak the truth in love. Blessings, Pastor Roy Palmer, Crossroads Community Church, Lancaster, New Hampshire."

This is from Megan Clack.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

Yeah praise the Lord, yeah!

[Applause]

I've been a bi-vocational pastor two times in my life. That's enough. Oh, my heart goes out to those guys. Praise the Lord though! Pastors like that can minister in places that pastors like me cannot. And God uses them, and I praise the Lord for them!

This is from Megan Clack.

“Hello Pastor JD and your wonderful church!

[that would be you by the way]

I am from Kentucky, the middle-of-nowhere Kentucky, in fact. I was saved August 5th, 2020. Praise God! I am a mother of three and have two daughters ages 17 and 14, from a previous marriage. Back at the beginning of this summer, their father took them both to get the vaccine and the follow-up shot a month later. He did this without my consent.

My oldest was initially sick for about four days after each shot. My youngest had no side effects. On August 29th while at their dad's house for the weekend, my oldest daughter became incredibly sick. She called me crying hysterically. She had a fever and was coughing up blood clots. My daughter is healthy.

I knew in my soul that the only thing that could have caused this was the vaccine. I went directly to my Lord in prayer. I asked for Him to heal her. I thanked Him in advance, just as you suggest. We took my daughter to the emergency room. We even brought one of the clots with us as proof.

The emergency room was empty of any other patients. The staff was sitting around joking and laughing. I say this not to speak badly of the staff, but as an example of an emergency room that is not packed with Covid patients. The only PPE the staff wore were masks.

They refused to give her a Covid test stating she did not meet the requirements of Covid, despite the coughing up of blood clots and running a fever. They would not even discuss the possibility of the vaccine causing any of this to happen. They kept asking my child if she smokes. She doesn't.

Finally, they took an X-ray to check for growths. When that X-ray came back clean, they gave her a prescription for antibiotics and sent her home. No other tests were run. None of this adds up to the crisis we see on the nightly news.

But God, but God, but my glorious God! Man, do I have a praise report for you! By the end of the day my daughter's symptoms were completely gone. No fever or coughing. She was so well that she went to school the next day and has not experienced anything else of this sort.”

[Applause]

This is a new believer mom from August of last year! How's that one?

This is from Lisa Vastine.

“Hello Pastor JD, you asked specifically about people who've experienced the faithfulness of God in recent time, and I felt led to write to you.”

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

By the way, just so you know, I narrowed it down to five pages. I have 125 pages! I thought maybe not today because we have a second service.

"I am a nanny in Los Angeles. And since the vaccine became available for everyone, all agencies and websites where I normally find jobs were requesting that Covid vaccine. In fact, many jobs that was the first requirement. That's how scared the celebrities, HNW families are of Covid.

My reason for not taking the vaccine was simply because I felt I didn't need it as I believe I got the virus while in Aspen in December 2019. Also I didn't like how it was being forced, and people were saying the unvaccinated were putting the vaccinated and others at such a huge risk.

On my job search, I heard so many no's I was losing hope and also tried doing other jobs that didn't require the Covid vaccine, such as Instacart and food delivery. After many months and countless no's, I finally found a family that was willing to make an exception. I didn't love the job, but I was going to take it.

The day before I did the trial at the job, I got a call from an agency that I normally work with, and she said she had a job for me and the client specifically wants a nanny who is not Covid vaccinated."

[Applause]

Oh, it gets better.

"I got the job and my commute is 10 minutes, which is unheard of in Los Angeles!

[in Honolulu too, but anyway]

And I am making more per hour than I previously made in my 17 years. I have more free time and the family is the kindest that I have ever met! Imagine that! A low-key family living in a small house and paying me way more than the Beverly Hills Malibu families!

[emphasis added]

I never expected this as I thought in not taking the vaccine, I would have to settle for a lower-paying job. But the Lord Jesus has provided more than I need! So this is a testimony of when things are darker, the Lord's light shines brighter."

Praise the Lord!

[Applause]

I wanted to include this one, and I think you'll see why here in a moment. It's from Michael Hilts.

"Pastor Farag, I am a family physician and am thankful that my religious exemption was accepted by my employer recently. Since most physicians are now employees of a large system, we have backed ourselves into a corner, and are no longer able to speak up for fear of losing our jobs. After hearing your latest update, it is becoming increasingly clear to me that unvaccinated people will soon have difficulty finding doctors who will treat them.

(Chuckling)

For several years, I have felt God calling me to go out on my own. It's a scary thought at this stage of my career, in practice for 22 years now and with kids in school. But you reminded me that if God is

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

calling me to do it, He will provide. Please say a quick prayer for me for wisdom and discernment in this matter.

Thank you for speaking the truth, God bless, Mike Hilts.”

Quick comment: again I want to be tempered in my commentary on these, but we need you to do that and step out in faith and trust the Lord and start your own practice because we need a doctor that we can go to that's not going to require us to get this thing.

[Applause]

Yes. I'm going to take it a step further. This is how I've prayed and what I've thought as I've prayed about this and thought about this. In every walk of life, I want to encourage you, maybe somebody watching online, maybe you're here today, and that's why you're here today, by the way.

Maybe, could it be that God is calling you to trust Him by faith and start your own business practice, whatever it is? Hairdressers. I have - oh, it's not today -it's on page 89 of the 125 pages.

Online members set up - she's a hairdresser - set up her own business in her home in New York. She's booked months in advance. I don't need a hairdresser necessarily but anyway, so across the board, every walk of life, you have no idea. And I truly believe that God may call you and use you for such a time as this because of this. So praise the Lord for this doctor.

This is anonymous.

“Pastor Farag, I am one of those who the doctor has refused to see because I refuse to wear a mask, and now it's the vaccine. I was being treated for macular degeneration. And for five years I had been receiving injections in my eyes.

In July of 2020, the doctor refused service because I wouldn't wear a mask, and no other doctor would see me. So I asked the church I have attended for 30 years to come, anoint me with oil, and pray over me. The whole church came, laid hands on me, and prayed for my healing. We are now in September 2021, and God has performed a miracle for me! Praise His wonderful name!

But you know, Pastor, even if He didn't - of course, I'm so grateful He did - my trust would still be in my great physician Jesus. He has never required anything other than believing in Him. He has given all of us faith. Maybe we just needed some help to exercise that faith.”

I think this is representative of many. Imagine that: The doctor won't see me. I need a physician. It's like the Lord going, I'm the great physician. Yes, I can heal you.

[Applause]

While I'm thinking about it before I forget, we need orthodontists, dentists, anyway, okay.

"Good morning. I just want to share this testimony about the exemption letter. I referred one of my family members to this church to obtain their exemption letter after her pastor declined because he's pro-vaccine. She was at the verge of losing her job or else be vaccinated.

She completed the request and received a letter. I received a confirmation this morning that they accepted the exemption letter and she resumed work. Thanks to all your team for the love and support during this time.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

Please share with the ministry to encourage others that God is still working and providing for us in the midst of the storm, Joshua 1:9.”

This is representative of - well, at last count I'm told that we sent out over 40, 000 religious exemption letters.

[Applause]

That's the Lord; only the Lord could do that, right?

This is from Peggy Landis.

“Pastor JD Farag, thank you for all your wonderful sermons and really putting me on fire for Christ. The Lord has essentially been preparing me for this journey since 2018. He has slowly and gently been breaking me to make me into the woman I am today. I was stubborn, strong willed, and pretty bossy to say the least.

[I don't know what she's talking about with that]

But God had another plan for me. Even my husband said, "Something is different about you.”

On 7/2/2018, I wrote God a letter stating, "I surrender my life to You. Take me where You desire. Wherever Your will and purpose for my life is I will follow.

[That's a very dangerous prayer by the way]

I was a professed Christian for 30+ years and never read the entire Bible. But God started giving me ears to hear, eyes to see, and a heart to receive. Your sermons were directly lining up with the scripture I was reading, and it was like a light had been lit that I had never seen before.

Through this entire journey, the Lord has been teaching me surrender, submission and obedience. Then my employer mandated the vax and/or weekly testing. I was saddened, but I said okay, Lord, take me where You want me. And He started opening doors in the community for little jobs everywhere, and I became confident to take the leap of faith.

I wrote my employer and explained that I could not bow down to the authoritarian mandate of vaccine or testing because I only serve my Lord Jesus Christ. I requested a religious accommodation and prayed, Lord, if You want me to move forward, then close the door and I will move. If You want me to stay, then You will create a way to stay.

I began to read Daniel 1 through 3 in my Bible study group during my lunch break on 9/13/21 and saw that Daniel [and she - I like this - uses the Hebrew names] Hananiah, Mishael, and Azariah were all protected by God's favor for following the Lord. I was at perfect peace that if I lost my job, the Lord would provide.

And then the Lord seemed to say, "Watch Me now.”

[I like that one]

I returned to work after lunch on 9/13 to find an email from my employer stating your religious accommodation has been approved and you will not need to partake in testing or vaccination. All I can say is wow, God! And now I continue to serve my Father with great expectation of His return while doing the continuing work of bringing others to Christ.”

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

As only the Lord can!

[Applause]

This is from Regina Tarango. Again, I hope I'm pronouncing your name correctly.

"My employer Kaiser Permanente Regional Office, Pasadena California, accepted the exemption letter from JD Farag. I am so relieved. I am now required to submit weekly COVID-19 saliva test in order to work in the building. Thank you, Lord! Thank you JD, and thank you staff too, by the way, all of you."

This is from Carrie Shortridge.

"I am a nurse at Vanderbilt in middle Tennessee where vaccine has been mandated. I submitted my religious exemption, and it was accepted seven days later. God also brought me through Covid into recovery. Got to give Him all the praise and glory."

This is from Kelli Anderson.

"Pastor JD, I'm watching the video where you're talking about the effects of the vaccine on those who got it who were exposed. Well I'm one too. [I want you to listen very carefully now to these] I have not been vaccinated with the COVID-19 vaccine. I am 39 and in excellent health. We eat very healthy, workout six days a week, and have no serious chronic health issues that would affect me in this way.

After being exposed to vaccinated people, I have had crippling menstrual cycles, passing huge clots. They've been lasting 13 days, breaking for 7 days, then another 13 days of heavy bleeding. My doctor has brushed it off as natural, but I do not accept that. This has been happening for eight months. I now take iron supplements because I became anemic from this.

I am not anti-vaccine. All our children are vaccinated, save this one. We choose to say no."

This is another one along those lines. It's from Diane Garig.

"Pastor Farag, I'm a Bowen therapist a.k.a. a licensed massage therapist in the state of Washington. I just led a 104-year-old client to Jesus one week before she went home to be with Jesus. She was quite healthy until she got the Covid jab, 104 years old. So blessed to be able to lead her to truth before she passed.

But this is not why I'm writing.

I'm writing because I've been working in close proximity with my clients. My work is clothes-on, so working barely on skin and mostly over clothing those who have been vaccinated. I had Covid in December and never really felt any effects from having Covid.

My case was very mild because I take the vitamins and all the healthy things I needed to do in order to have a mild case. God was definitely good to me.

After my clients started to get the vaccine in eastern Washington, I started having miscellaneous medical symptoms. I'm very healthy for 62. I am on zero prescription medications for any health conditions.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

First symptom was low back pain. Next symptom is I started having unusual amounts of hair falling out.

[And then she says this; listen to this]

I know of eight people who have died as a direct result of the jab.

[Eight people that have died]

So all that to say, these Covid jabs are not only damaging to the one getting them, but these people are transferring spike proteins to those around them. They are dangerous and deadly.”

Again, along the same lines, this is from Matthew Fleischmann.

“I have not been vaccinated. I emailed you back in May or June to let you know that I had fallen sick after being around coworkers that have been vaccinated a day prior.

The coworkers were experiencing moderate symptoms that their doctors said were "just the vaccine settling in their system.”

My symptoms which I attributed to being shedded on by spike proteins were fever, sweats, headache, and body aches. It was intense and completely sapped my energy for 3.5 days. I only rested and slept the sickness off.

Well, on September 8, I fell ill again. I had the same exact symptoms. This time I treated it with a Covid preventative protocol: Quercetin, zinc, vitamin C, and vitamin D. I was better in 1.5 to 2 days. I did a Covid self-test during sickness and it was negative.

Just prior to being sick I had traveled by car from California to Idaho and back, interacting and being exposed to lots of people. I think I was shed on yet again. I just want you to know this in case it helps you with your data and understanding.”

And yes, it is, by the way.

And here's another one. This one is from Katrina Lumley.

“Hi JD, back on July 23rd, I was diagnosed with Covid. I have asthma like you and get bronchitis a lot. So two weeks prior, I had already come down with bronchitis before getting Covid.

I went to urgent care in Beaumont because I was having trouble breathing. They said they thought I had Covid but couldn't test me. So I had to go to the E.R. at Redlands Community Hospital.

In the large room with me, there were two other women, all had Covid, all had the vaccine. I was the only one there unvaccinated. Both were in worse condition than me. One had an oxygen percent of 61% and the other was having a stroke.

Even though I felt so tight and felt like I couldn't breathe, my oxygen rate was 93%. But God!

Anyway, the doctor said, "I'm sending you home.”

I asked him, "What are you going to give me for Covid?"

He replied, "Nothing.”

I asked him for antibiotics for the Covid.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

He said I did not need them.

I then asked, "Would you at the very least give me Prednisone since I have asthma and now Covid?"

He agreed to do that and only that. That doctor sent me home to die like thousands of other people because I was unvaccinated. They all treated me with contempt because I was unvaccinated.

I called my own doctor two weeks later because I was still so sick. And he said I would be okay because I was almost over it now. He had been trying to get me to get the vaccine for months.

I went home and told my very good friend who used to work with a doctor that still had a medical practice. He told her without treatment and my asthma, I would not survive without treatment of the Covid since I had already been sick. He prescribed hydroxychloroquine, and a Z-pack along with a regimen of vitamins. The medication cost \$58.00, and that's without insurance.

I started the medication on Monday and was very sick for three weeks. I couldn't even stand up without passing out. I couldn't eat, I lost my taste and my smell, I couldn't breathe. I had an awful headache that only went away with my migraine medicine and couldn't see [visually]. I lost 23 pounds.

As sick as I was though, my oxygen level never dipped below 90%. But God!

I later found out I caught Covid at work [I want you to listen very carefully] from one of seven coworkers, all of whom were vaccinated. I still don't have my smell back, but everything else is great. Praise God!"

Now I need you to just bear with me please. Late, late last night I was praying and seeking the Lord about this. And then early this morning, I woke up a little bit earlier than I usually do on a Sunday morning and was asking the Lord and was prompted by the Lord to include this, so I included this just this morning because it speaks to and answers the question of: What is going on? Why are people getting so sick?

Why are people that have already gotten Covid, not gotten the vaccine getting so sick? Could it be that it's because they're close in proximity to those who have gotten the vaccine as we just read from these testimonies?

Well pictured here is an August 26th article on LifeSite News titled "Study: Fully vaccinated healthcare workers carry 251 times viral load, pose threat to unvaccinated patients, co-workers." Kindly allow me to quote from this article.

"A groundbreaking preprint paper by the prestigious Oxford University Clinical Research Group, published August 10th in The Lancet, includes alarming findings devastating to the Covid vaccine rollout. The study found vaccinated individuals carry 251 times the load of COVID 19 viruses in their nostrils compared to the unvaccinated.

While moderating the symptoms of infection, the jab allows vaccinated individuals to carry unusually high viral loads without becoming ill at first." Did you hear that? I'm going to read that again. "The jab allows vaccinated individuals to carry unusually high viral loads without becoming ill at first, [Oh, that explains it] potentially transforming them into pre-symptomatic superspreaders.

This phenomenon may be the source of the shocking post-vaccination surges in heavily vaccinated populations globally."

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

Still quoting, "The paper's authors, Chau et al, demonstrated widespread vaccine failure and transmission under tightly controlled circumstances in a hospital lockdown in Ho Chi Minh City, Vietnam. The scientists studied health care workers who were unable to leave the hospital for two weeks.

The data showed that fully vaccinated workers about two months after injection with the Oxford/AstraZeneca COVID-19 vaccine acquired, carried, and presumably transmitted the Delta variant to their vaccinated colleagues. They almost certainly also passed the Delta infection to susceptible unvaccinated people, including their patients.

Sequencing of strains confirmed the workers transmitted SARS-CoV-2 to one another. Thus, we have a key piece to the puzzle explaining why the Delta outbreak is so formidable. Fully vaccinated are participating as COVID-19 patients and acting as powerful Typhoid Mary-style superspreaders of the infection.

Vaccinated individuals are blasting out concentrated viral explosions into their communities and fueling new COVID surges. Vaccinated healthcare workers are almost certainly infecting their coworkers and patients, causing horrendous collateral damage."

For those who are interested, we did a Prophecy Update on this back on March 13th of this year. I titled it 'The Devil is in the Details.' Now this is March. And in it I quoted leading experts in the field all of whom were saying the same thing.

There's going to be a transmission from the jabbed to the unjabbed, and it's going to be down the road, we don't know, maybe 6 months, a year, 18 months.

Okay, let's count: March, April, May, June, July, August, September, six. It's happening exactly as they said it would. Here's just a couple of the quotes from these leading experts, and we have these links online, by the way.

"The problem I'm talking about is a global problem. It's not an individual getting an adverse event. It's a global problem of making this virus increasingly infectious because we leave it all the time a chance, an opportunity to escape the immune system and to drive this.

So to whip this up to a level where the virus is so infectious that we can even no longer control it because basically what we are doing is that when we vaccinate somebody, we are turning this person into a potential asymptomatic carrier that is shedding the virus."

Here's another quote.

"The people who have been vaccinated are now sharing mutated viruses with those around them. The mutations are becoming stronger and deadlier. I believe this is why new virus variations are appearing in areas where the vaccine has been given to lots of people. It is the vaccinated individuals who are going to threaten mankind."

[This is six, seven, eight months ago]

"It is the vaccinated individuals. They will be a major threat to anyone who has been vaccinated, but they will also be a major threat to the unvaccinated because the viruses they are shedding are more dangerous than the original one."

This is anonymous.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

"I just got off the phone with my nephew's wife. She shared with me about her friends going to Minute Clinic at CVS Longs Kailua. They went in for an antibody test. The lady helping them told them, "Wow, you have a lot of antibodies."

She continued the conversation saying she has had a lot of vaccinated people come in for an antibody test, and said they had no antibodies

[not low antibodies, no antibodies]

and went on and said, "I can't explain it." This took place in Kailua.

Then another family member went to the same clinic to check her antibodies and she is loaded. She is not vaccinated but did have Covid a while ago. Can anybody in the medical field explain this?

Then a mom and two sisters just got an antibody test at CVS Kailua, and they had natural antibodies from having Covid this summer. The nurse gave them a paper saying that they are good until April of 2022. The nurse also said that she doesn't know how to explain it, but a lot of people who are fully vaccinated are testing to have zero antibodies. And our friend's husband is one of them. "

Okay. But God!

This is from Amy Wolfe.

"I am so thankful for Covid. I had the virus and got the monoclonal antibody infusion by day 3. Due to my allergies, I wasn't sure if I could go south on day 8-12. Within 48 hours, there was a huge difference even though my symptoms were minor compared to others. I was able to share the Gospel with four people I would have never come across if I didn't get sick. Two from the infectious disease clinic who gave me the infusion, a cleaning lady my husband sent to our home after my quarantine,

[Did you hear that, husbands? I'll leave that one right there]

and a contractor to work on our home.

The Lord has also used this in my unsaved husband's life. I have showed no fear and had joy through it all. When we got married, we were both lost. Then I came to Christ seven years later. Please pray for Matt and that he will not be left behind. I've been praying for him for 22 years."

Yes Lord, for Matt's salvation.

This is from Shelley Ranallo.

"I follow you from Pennsylvania. My "But God" miracle happened in March 2020. But God opened up my spiritual eyes and pulled me from the lukewarm Christian life I was living and set a fire in my life, and in turn, my family's lives. So grateful God turned what was meant for evil into good."

And this last one I kind of saved the best for last. It's from Lee.

"Thank you for your service, sir. Just a quick note to let you know your work is very valuable. I'm not so great with words but wanted to thank you. I've been a seeker for many years, and it was one of your videos that sealed the deal for me, the one with the monetary system graph. I surrendered that night to Jesus Christ. God bless you."

That's what God's doing.

Restraining the Evil, Sustaining the Righteous
JD Farag

[Applause]

What's God doing? That's what God's doing.

He's bringing people to Him, people back to Him because of this. This is meant for evil. But God! He takes it, and He makes it to bring people to salvation as only He can! And he's doing it! He's doing it right now!

Praise the Lord!

[Applause]

I'm sorry I'm yelling and spitting on everybody in the front row. Free water baptism sprinkling this week for the front row.

I think I made the comment, I just need a couple more minutes please, if you'll grant me that grace. I remember making a similar comment more than once since this whole thing started. I thank God for this crisis. I thank God for this crisis. People are coming to Christ that would have never otherwise come to Christ had it not been for this!

Yeah, but Pastor, it's getting kind of scary.

I know. But God, but God!

You know, when we get testimonies like this it's just another reminder of how important what we do is. And by the way, this is fruit added to your account. You're a part of this. You're a part of this. God has in spite of us, certainly in spite of me deemed fit to take this obscure ministry, this His church on the windward side of Oahu, to literally reach the uttermost parts of the earth. And you're a part of that. And we praise God for that.

And this is why we do this. And this is why we've been doing this since, get this, 2006.

I'll let that sink in for just a moment.

Somebody help me out here. How many years is that, 15 now?

I'm getting no help from my brethren.

Isn't it, right? This is about 15 years? 15 years, 15 years!

And this is why we not only do these updates, but it's also why we end with the Gospel and a childlike explanation of salvation by way of the ABCs of salvation. And that's how I want to bring it to a close today if you'll just give me another couple of minutes.

What is the Gospel? The Gospel is found in 1 Corinthians Chapter 15, the first four verses.

Jesus came, He was crucified, He was buried, and He rose again on the third day. And as he writes, the Apostle Paul to the Thessalonians church, He's coming back again one day.

That's the good news, the Gospel.

What are the ABCs of salvation? Really just a simple explanation, very childlike simple.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

The A is for admit or acknowledge that you're a sinner, that you need a savior. Romans 3:10 says, "There is no one righteous not even one." You might be a good person, but you'll never be good enough.

And Romans 3:23 tells us why. It's because, "All have sinned, and fall short of the glory of God."

We were all born sinners, which is why we must be born-again Jesus said to enter the kingdom of heaven. Romans 6:23 is interesting because it really packages the good news with the bad news. And the bad news is first.

What's the bad news?

Oh, the bad news is, "The wages of sin is death." It's the death penalty. We've all been sentenced to death because of sin.

And the good news is this: "The gift of God is eternal life in Christ Jesus our Lord." That's the good news, the Gospel.

The B - this is central - because the A brings us to the B, believe. And then the B also is an expression of the C, which is to call upon the name of the Lord.

The B is for believe in your heart that Jesus Christ is Lord. Romans 10:9-10 says, "If you believe in your heart that God raised Jesus from the dead, you will be saved."

And the C lastly is for call upon the name of the Lord, or as Romans 10:9-10 also says, "If you confess with your mouth Jesus is Lord and believe in your heart that God raised Him from the dead, you will be saved." And here's why. "For it is with your heart that you believe and are justified, and it is with your mouth that you confess and are saved."

And lastly Romans 10:13 seals the deal. It says, "That all who call upon the name of the Lord will be saved."

Not might, not could, not should, no, will, will, all.

You know what "all" means? I know this is deeply profound. Just bear with me.

It means all. You look it up in the original? What does it mean? All.

All have sinned and fall short. All who call.

Are you an "all?"

I was an "all." I am an "all."

Forty years ago. Don't do the math. I was five. Actually I was older but I was an "all."

And all I did was call upon the name of the Lord, and I was saved. And I've never looked back.

Why don't you stand? We're going to pray. We'll have the worship team come up.

Thank you so much for your patience. Oh, how uplifting and encouraging were these testimonies? Lord willing next week we'll have more. I'm just going to give the Holy Spirit the elbow room on this. And as He leads me, I'm going to share these in the weeks to come, Lord willing. I always want to preface it with Lord willing.

Bible Prophecy Update - September 19, 2021
Restraining the Evil, Sustaining the Righteous
JD Farag

I have some that I wanted to include today, but time did not permit. Oh, I can't wait till next week. See now you've got to come next week.

Why don't we pray? If you would please join with me.

Father in heaven, thank You! Thank You, Lord! Thank You that no matter how bad it is, it cannot change how good You are. Lord, You are good. Lord thank You for what You're doing, the good that You're doing, the people that You're saving, the people that You're bringing back to Yourself because of all of this.

Lord, it's our hearts' desire to be a small part of that. And what a privilege it is, first of all, to be alive at this time in human history. As terrifying as it is, it's absolutely exciting because as we see all of this happening, we know how close we are to that trumpet sounding.

Lord, if there's anybody here in this church or watching online that has never called upon You, believing in their heart, putting their trust in You for the forgiveness of sins, I pray that today would be the day of their salvation, in Jesus' name, amen.
